

# AUSTRALIAN GOVERNMENT RECOVERY PROGRAM

Reef Catchments has been awarded funding through the Australian Government to undertake recovery works in priority areas of the Mackay Whitsunday region. Activities will focus on sustainable land management practices that also reduce threats to the health of the land, such as weed control, land-type fencing, revegetation, fire management and feral animal control.

## ELIGIBLE ACTIVITIES IN PRIORITY RECOVERY AREAS

Vegetation management (land type fencing and watering points)  
Riparian fencing (creeks and rivers) and watering points  
Riparian management (revegetation and weed control)  
Revegetation and weed control of native vegetation  
Fire management  
Feral animal management
