

INFORMATION SESSION

FERAL CAT PROJECT

TUESDAY 12th MAY |

Looking after feral and domestic cats and our native wildlife in the Slade Point residential area.

LOCAL RESIDENTS ARE INVITED TO AN INFORMATION SESSION TO LEARN MORE ABOUT THE PREVALENCE OF FERAL CATS WITHIN SLADE POINT.

Reef Catchments, along with Mackay Regional Council and North Queensland Bulk Ports (NQB) are undertaking a feral cat monitoring project to gain an insight into feral cat populations and their impact on native wildlife at Slade Point.

We need your help...

As local residents, you are best placed to observe and advise if there is a problem with feral cats in Slade Point, and act on monitoring results to decrease the problem. Come along and meet with the stakeholders involved in this project and learn more about what the program entails.

DATE: Tuesday 12th May, 2015

VENUE: SeaBreeze Tavern, 72 Pacific Esplanade, Lamberts Beach

TIME: 7:00pm - 8:00pm

COST: Free, nibbles provided

Why should you attend?

Learn about Slade Point's unique coastal environment and why feral cat management is so important.

Why are feral cats a problem?

Learn about what makes a cat "feral" and why they are a problem.

What else is being done?

Learn about pest management works currently occurring within the Slade Point area.

What can you do?

Discover ways in which you can protect your cat and our native wildlife.
