National Landcare Programme

REEF CATCHMENTS

LOOKING AFTER LOCAL LANDSCAPES

Reef Catchments has been awarded funding through the Australian Government NLP (National Landcare Programme) to initiate **"Looking after our landscapes"** to undertake works in high priority areas of the Mackay Whitsunday region. Funding is available to support local community groups and landholders to conduct works that protect our region's landscape and natural biodiversity.

- Regional centre
- Town
- Priority area

Who can apply?

- LANDCARE AND COMMUNITY GROUPS
- TRADITIONAL OWNERS
- LOCAL COUNCILS
- LANDHOLDERS
- RURAL FIRE BRIGADES

GRANTS AVAILABLE BETWEEN:

\$2,000 - \$15,000

ELIGIBLE ACTIVITIES IN HIGH PRIORITY AREAS...

- Vegetation management (fencing and watering points).
- Riparian fencing (creeks and rivers and watering points).
- Riparian management (revegetation and weed control).
- Revegetation and weed control of native vegetation.

- Fire management.
- Protection and restoration of native vegetation.
- Weed control in priority coastal habitats.
- Public access management, and management planning for priority coastal habitats.
- Removal of marine debris from priority turtle nesting beaches.
- Building local landcare community awareness.

- Facilitating increased adoption of sustainable agricultural, fishing and aquaculture practices to conserve and protect biodiversity.
- Building community knowledge, skills, engagement, participation and awareness of the local landcare community and industry.
- Building Indigenous people's capacity for planning and delivering natural resource management and sustainable agricultural activities.
- Projects that complement current natural resource management activities.
- Activities that address priorities identified in regional natural resource management plans.
- Facilitating the uptake of sustainable agricultural practices by landcare community groups.
