JOIN THIS FREE REEF CATCHMENTS & NQ DRY TROPICS COLLABORATION

BUILD YOUR KNOWLEDGE IN

SOIL HEALTH & INNOVATIVE TECHNOLOGIES

ENHANCE NATURAL RESOURCES & INCREASE FARM PRODUCTIVITY

MORNING WORKSHOP

AGRONOMY EXPERT DAVID HARDWICK, will make soil science fun and interesting. We will assess soils and learn about the importance of multi-species pastures in your grazing enterprise.

WHITSUNDAY REGIONAL COUNCIL, will demonstrate the exciting functions of UAV/drones. We will explore how drones can assist in mapping and treating weeds and how this technology can add value to your farming business.

Free lunch and networking

Meet and greet the following representatives:

- ~ Central Queensland Soil Health System
- ~ Bowen Collinsville Landcare
- ~ Whitsunday Catchment Landcare
- ~ Mackay Regional Pest Management Group
- ~ Reef Catchments (Juliane Kasiske)
- ~ NQ Dry Tropics (Lisa Hutchinson)

Seek advice or gain insight into their projects and services over lunch.

This event is proudly supported by Reef Catchments through funding from the Australian Government National Landcare Programme, and with support from event partners NQ Dry Tropics.

RSVP BY TUESDAY 1ST MAY
