Please email completed forms to grants@reefcatchments.com

CONSENT TO CHECK AGAINST PREVIOUS OR ONGOING WATER QUALITY REEF INVESTMENTS

By working with _____[name of delivery provider] and Reef Catchments (Mackay Whitsunday Isaac) Ltd on this project, you are receiving support from a project that is funded by the Great Barrier Reef Foundation (GBRF) to improve water quality for the Reef. The funds are derived from a grant from the Australian Government. As part of its commitment to put public funds to the best use, GBRF needs to understand how this investment complements previous or ongoing projects related to improving water quality. All landholders receiving support under GBRF projects are required to complete the following consent form.

Please select one of the following (cross out the one that does not apply):

I declare that:

- a. To the best of my knowledge:
 - I have not previously received one-on-one extension support or incentives from any program funded to improve water quality for the Great Barrier Reef (excluding attending group training, shed meetings, demonstrations or forums), and
 - My farm has not reported management practice change to the Paddock to Reef Program as a result of working on a project of this nature.

- b. I am receiving or have previously received one-on-one extension support or incentives from a program aimed at improving water quality for the Great Barrier Reef. Please provide further details below of all projects/support. Attach separate document if necessary.

- Delivery provider:
- Date:
- Nature of targeted practice improvement:

Area applicable: whole/part of my farm

- Delivery provider:
- Date:
- Nature of targeted practice improvement:

Area applicable: whole/part of my farm

I consent to [name of delivery provider], [name of Regional Program Manager (if any)] and the Queensland Department of Agriculture and Fisheries (DAF) providing GBRF access to any information that has previously been reported for my farm related to voluntary management practice change to the Paddock to Reef Program. This includes access to project spatial boundaries with associated management practice information, the full set of Paddock to Reef Program questionnaire responses and the resulting Nutrient, Soil and Pesticide management scores.

I acknowledge that this information will be used by GBRF, [name of delivery provider], and [name of Regional Program Manager] to help prioritise activities under the project so that actions can be complimentary to past projects and achieve the greatest water quality improvement.

This consent is provided on the condition that the information will be treated by GBRF in accordance with the GBRF Data Collection Statement, and that it will be valid until the end of the Reef Trust Partnership (30 June 2024).
